In Effort to Break the Stubborn Resistance Offered By Allied French and British in Battle Now Progressing in Northern France

## REVERSES AND VICTORIES OF RUSSIANS AND AUSTRIANS

Admitted Officially in Petrograd (St. Petersburg), That Two Army Corps and Three Generals Have Been Lost—Attitudes of Turkey and Italy Anxiously Awaited, and Unconfirmed Report Had It That the Turks Had Declared War On Russia—Germany Wants Italy.

The fourth day of the second general battle between the Germans and the allies finds Emperor William's forces pressing with unprecedented strength their advance on Paris. Their right is reported to be within 50 miles of the French capital.

In the absence of official announcements news despatches indicate that the British and French continue a stubborn resistance giving way slowly, however, whenever the strategy is needed to keep their lines intact and prevent an enveloping movement by the German right. In the east the fighting progresses with unabated fury. Both the Russian and the Austro-German armies have met successes and reverses. It is admitted in Petrograd (St. Petersburg) that two army corps were defeated in East Prussia and that three Russian generals were lost.

On the other hand the Austrians appear to have been defeated in Galicia where overwhelming successes are claimed by the Russians. This claim finds support in a despatch from Vienna which states that the Austrians had decided to evacuate Lemberg, the capital of Galicia.

Official despatches from Petrograd by way of London show evidence of having been closely censored in London. The attitudes of Turkey and Italy are anxiously awaited by all the belligerents. A semi-official despatch from Petrograd says that Turkish troops have landed on the shores of Asia Minor at Smyrna. Further pressure is reported to have been brought on Italy by Germany and Austria to have her support for the triple alliance.

The Japanese foreign office has issued a statement complaining of the alleged unfair treatment of Japanese non-combatants in Germany.

(Associated Press Telegram.) London, Sept. 2, 10:10 a. m.—A corner of the curtain over the battle drama in northwestern France has momentarily been raised. It shows the allies battling desperately to prevent the success of the German assault on the upper Oise, less than fifty miles from Paris.

On the eastern war stage Russia frankly confesses disaster to two

army corps, and the loss of three generals. Elsewhere the Russian arms seemed to have triumphed. Galicia has been successfully invaded and Lemberg will soon be evacuated, according to reports from St. Petersburg war office. If this is true the Austrian menace to Russian Poland will be ended and the Russian forces can begin to converge for the march on Berlin, the Russian objective in North Galicia, apparently clear of Germans. They can march on Berlin via Breslau.

On the upper Oise the British are fighting desperately to prevent the Germans from securing one of the most direct routes to Paris. News of this battle reaching here from two different sources is the first definite information since the end of the battle of Mons. The battle raged Sunday and Monday and by weight of numbers the Germans secured a slight advance.

Military experts point out that from the present position on the upper Oise river the German advance will become increasingly difficult owing to the natural features of the country, as well as the artificial defenses that will have to be encountered.

It is becoming evident that all along the western line the allies are playing for time in the hope that the German assault will become exhausted. On the diplomatic side Germany is making renewed efforts to bring Italy into her camp by a proclamation which cites that a victory for England and France will deprive Italy of all chances of dominating the Mediterranean.

## HIGH STEEPLE IS MARK FOR BOMBARDMENT

(Associated Press Telegram.) London, Sept. 2, 8 a. m.—A despatch from Antwerp to Reuters' Telegram company, conveys the following official announcement:

"The Germans are again bombarding Malines, aiming at the steeple of the cathedral which is a prominent landmark for miles around."

"Certain movements of the German troops in the direction of Asche, in the Province of Brabant six miles northwest of Brussels, gave rise to the belief that the Germans were contemplating a movement toward Termonde, 16 miles east of Ghent. However, the Belgian troops have been reinforced on account of the necessity of preserving control of Waasland. The enemy advanced from Brussels to Asche yesterday, but could not penetrate further north."

## King Albert Congratulates Brand Whitlock For Saving Brussels From German Guns

(Associated Press Telegram.) London, Sept. 2.—The correspondent of the Telegraph, who has just returned from Brussels, describes conditions there and brings the report that a young Frenchman, who represented the Chicago Daily News in Brussels, has been arrested and shot. The Telegraph's correspondent says:

"On Saturday I reported to German headquarters in Brussels where I found General Von Jarosky, who is commander of the eighth brigade of the sixteenth division. His aide-de-camp, Lieutenant Geyer spoke English, having married a woman from St. Louis. I asked for a pass and received one to go anywhere signed by Von Jarosky who commanded a brigade of five thousand men in an army of over a million."

"Geyer was handing passes to all who asked. He handed one to a young Frenchman who represented the Chicago Daily News. I have since heard he had been arrested and was shot."

"Armed with my pass I went to a point near Hal, where I learned of the great turning movement toward the allied left flank."

"I was in Brussels for some time before the Germans entered. It was midday of Wednesday (date not given), when the German commander demanded the surrender of Brussels. The commandant replied that he was bound by his honor to defend the town."

"Brand Whitlock, the American minister, advised the unconditional surrender of the city, pointing out how resistance might bring increased misfortunes on the citizens, but the commander remained adamant until orders arrived from King Albert telling him to surrender the town."

"Later Mr. Whitlock was officially congratulated by the king for his action. Undoubtedly he had a great deal to do with saving Brussels."

"The German entry into Brussels was a wonderful and impressive sight. I have seen many military parades in time of peace but never a parade on so vast a scale which went on without a hitch."

"It was impossible to imagine that these men had been fighting continuously for ten days or that they had even been on active service. First of all came six cyclists, then a detachment of cavalry, then a great mass of infantry, then guns and field guns."

Town of Moulain, Burned to the Ground by German Invaders.

This photograph was taken a few hours after the German troops had occupied the town of Moulain in Belgium. They decided to wipe the place from the face of the earth. But before doing so they gave notice to the inhabitants to leave and thousands of men, women and children hurriedly packed their household goods in carts and went out seeking shelter. In a few moments the town was in flames and little was left of it.

## Scathing Denunciation of All Reports of German Losses or Allies' Victories, Comes From Berlin Sources

Washington, Sept. 2.—The German embassy has received the following wireless from Berlin:

"The news that German troops have left Brussels and account of the situation in East Prussia is wrong. The German administration in Brussels is very active, civil servants arriving every day for newly organized offices."

"The French official communiqué, that the Russians have completely invested Koenigsburg is also a lie. The Russians never covered half the distance between the frontier and Koenigsburg and are now retreating eastward after the annihilation of the Narew army."

"The Gazette del Popolo, a respectable paper, calls London a lie factory comparable with Shanghai during the Russo-Japanese war."

"Lord Churchill's declaration that a victorious Germany would seek expansion in South America appears to be the climax of ridiculous calumny and of an unscrupulous attempt to incite the friendly nations of both north and south America against the German people while the German press here on the contrary heartily welcomes the progress and prosperity of free American nations."

"Enormous excitement has been caused by the Belgians' attempt to induce the world, with London and Paris, who are endless liars, as accomplices in the belief that German soldiers are authors of atrocities. The Socialist German paper 'Vorwaerts' gives a shocking description of the wholesale assassination of Germans at Louvain. The Simplificisme, another publication, says the name of Belgium is the worst insult that could be inflicted upon civilized man."

"German soldiers returning from Belgium cruelly mutilated, increase the German people's abomination against the revolting atrocities created by the Belgian civilians."

## PRES. WILSON IS ANNOUNCED FOR 2ND TERM

Vice President Says Other Lightning Rods Might as Well Be Taken Down.

Washington, Sept. 2.—Vice-president Marshall authorized a published statement here today that President Wilson would be a candidate for reelection.

Secretary Tamm said the White House knew nothing of the statement and would not comment upon it.

The vice-president's statement was made in the course of an authorized interview on the political situation, which concluded thus:

"The Democratic party will have but one candidate for president in 1916 and his name happens to be Woodrow Wilson. He will have the entire and unqualified support of his party. For minded Democrats will recognize that he is entitled to a chance for a second term."

"Lightning rods already up may as well be taken down and preserved for future use. Lightning will not strike a rod in 1916."

PRESIDENT RETURNS FROM VACATION

Washington, Sept. 2.—President Wilson returned to the capital this morning from his summer White House vacation.

Within ten minutes after the president's arrival at the White House he was at work. He saw several callers and his health was much improved.

Mr. Metz asked the state department to make representations for raising the embargo on the latter.

## GERMANS USED GUN RECENTLY INVENTED WITH AWFUL EFFECT.

(Associated Press Telegram.) London, Sept. 2.—The House of Commons received the following report from the French army:

"A French artillery officer, who has just arrived from the front, spoke with the greatest earnestness regarding the new siege guns which the Germans are using."

"He says the guns throw a new and highly explosive shell which has a most devastating effect."

"This new gun and shell were recently developed at the Krupp works and the fact that the Germans had it was kept a profound secret until it was brought into action at Liege, Namur and Louvain."

"In all my experience I have seen nothing like it," declared the French officer.

GERMAN PRINCE FATALLY SHOT BY A PRIVATE

(Associated Press Telegram.) London, Sept. 2.—In a despatch from Amsterdam, the local correspondent of the Central News says that the shot which ultimately resulted in the death of Prince von Roon, one of the German generals, was fired by a Belgian private named Rosseau, who has since been decorated by King Albert for his conduct in the battle of Halen.

Rosseau was lying badly wounded among a group of dead comrades when he saw a German officer standing beside his horse and studying a map. Picking up a rifle from beside a dead comrade, Rosseau fired at this officer and wounded him. The officer subsequently proved to be Prince von Roon. Explaining his hat for the German general's helmet and taking the general's horse, Rosseau made his way to the Belgian lines and was placed in a hospital at Ghent.

## REPORTED VICTORY FOR ALLIES

(Associated Press Telegram.) Paris, Sept. 2.—"A German cavalry corps marching toward the forest of Compiègne, on the left wing of the allied forces, engaged the English Tuesday, Sept. 1. The English captured ten guns." This statement was given out officially today.

## PROTEST BOMB THROWING

(Associated Press Telegram.) Washington, Sept. 2.—Ambassador Herrick transmitted to the state department today the protest of a committee of Americans in Paris against the dropping of bombs by German airplanes.

The ambassador cabled that the French war office had furnished evidence that the bombs were dropped by Germans as small German flags and proclamations addressed to the French were contained in them. The ambassador made no protest of his own accord, simply stating that it was the conviction of Americans who investigated the subject that the incident was a violation of The Hague convention and contrary to the rules of civilized warfare.

## CZARINA AND HEIR APPARENT VISIT WOUNDED

(Associated Press Telegram.) London, Sept. 2.—The Daily Telegraph's correspondent from St. Petersburg wires as follows:

"By special order a train with first consignment of wounded soldiers from the front halted at the Tsarkoe-Selo station, where the men were visited by the empress, the heir apparent and the Grand Duchesses Olga. The imperial party walked through the train and listened to the medical reports and made inquiries concerning the condition of the patients."

## Reckless Sacrifice of Lives Characterizes German Advance In Battle, Now in Progress

(Associated Press Telegram.) London, Sept. 2.—The Chronicle's correspondent from an unnamed town, sends an account of the third British battle, Monday, which follows: "Desperate fighting in which the British troops are playing a heroic part, is taking place close by."

"The right wing of the allied forces, forming the northern army, has been fiercely engaged but it is against the British on left wing that the Germans are focusing the whole of their weight, regardless of the enormous sacrifice of human life on the part of the German army."

"The battle, which is still at an undecided stage, was preceded by very heavy artillery fire. The German guns were well served and the aim of their gunners was rendered very accurate by observation of the aerial pilots, who throughout the day hovered above the allied position, correcting any wild firing on the part of the German guns."

## DAVID REESE HURT AT CASE ORCHARD

Luncheon in Honor of Miss Chrysler—  
Ira Perry's Daughter In-  
jured—Granville News.

(Special to The Advocate)  
Granville, O., Sept. 2.—At the Case peach orchard, Dave Reese, a Denison student who has spent most of the summer at work in Granville, sustained a painful accident while assisting the pickers in turning out the rush orders. From a step-ladder which had not been properly spread, Mr. Reese was falling his basket from the top boughs of a tree when he felt his support giving way. Cumbered by the heavy basket of fruit, he failed to leap clear of the falling ladder, but fell with his left arm doubled under him. At first it was thought that the bone was fractured as the arm was turned back at the elbow. Mr. John Prouty who was on the scene, rendered efficient "first aid" by pulling the forearm into place and a physician was summoned who applied the proper remedies, and carried the injured man to town in his auto. Mr. Reese who is one of the most popular men in college, is a member of the Denison football, basketball and baseball teams, with a splendid record, and is also a member of the Beta fraternity. While it is hoped that his injury is not serious, nor lasting, his friends know that it is bound to be annoying and inconvenient as he will not be able to resume work for some time, and they warmly sympathize with him in his disability. He is at the Beta house.

On Tuesday afternoon Misses Betty and Rachel Jones gave a charming luncheon at their home in Pearl street, to twelve young ladies, complimentary to Miss Ada Chrysler, whose wedding is set for the middle of September. The handsomely appointed function was in the nature of a miscellaneous shower and Miss Chrysler was the recipient of many beautiful gifts expressive of the love and esteem in which she is held by her friends.

The afternoon was spent in a sewing contest, the dainty articles fashioned by the deft fingers of the young ladies—Sachet bags—being retained as souvenirs—an amusing guessing contest also engaged attention. A delicious luncheon was served to the following guests: Miss Allert Chrysler, Miss Shirley Slack, Miss Addie Slack, Miss Mamie Geach, Miss Anna Bortlett, Miss Corbertha Franks, Miss Flora Hoover, Mrs. Olive Rusler Smith and the hostesses Misses Betty and Rachel Jones.

Mr. and Mrs. DeWitt Jones of Columbus, who have been the guests for a few days, of Mr. and Mrs. Charles Watkins, returned home last evening.

Mrs. Lillie Prouty and her son Arthur Prouty who have spent the summer in Michigan have returned to their home in Elm street.

Little Margaret, the two-year-old daughter of Mr. and Mrs. Ira Perry, met with a painful accident yesterday, scalding her hand and arm in a pail of water which her mother had set on the floor for a moment, not noticing the little one was near. The patient is doing nicely and is again smiling on her friends as if nothing had happened.

Work has begun on the Baptist parsonage, the brick house on the corner of Mulberry street and Broadway formerly occupied by Dr. E. P. Cook. The house will be remodelled with all the modern conveniences and will be occupied when completed by the pastor of the church, Rev. Millard Brelsford whose lease on the Pearl street house has expired, has stored his household goods and has taken rooms for his family in the Swartz residence in Elm street, awaiting the completion of the repairs.

Dr. G. F. McKibben who has spent a pleasant fortnight in Northport, Mich., has returned to his home in Elm street.

Mr. Wallace Cateheart of Cleveland one of the Denison trustees is a Granville visitor. He is accompanied by his daughter who will enter Shepardson college this month.

## SUFFERING WOMAN IS STILL BETTER

Resident of South Fifth Street Tells  
More About Nerv-Worth's  
Wonderful Benefits.

Readers will remember that a short time ago Mrs. Stickle of 211 South Fifth street, this city, made a written statement setting forth the wonderful benefit which she had derived from the use of Nerv-Worth, the new nerve-tonic which is being sold on a guarantee at the T. J. Evans drug store Hotel Warden building. Mrs. Stickle since then has reaffirmed her praise of Nerv-Worth. She writes that everything said by her in the published statement was true and that use of Nerv-Worth since then has made her still better. Speaking of this case the Nerv-Worth specialist at the Evans drug store says that "Mrs. Stickle's breakdown in health was undoubtedly one of the worst of the kind in Newark."

All the more credit to Nerv-Worth, then, for the work it did for that suffering woman. One thing it did was to improve her condition so that she could go on with her work, a vastly important thing in her case, for she earns her bread by the sweat of her brow.

Call on the Nerv-Worth specialist at the Evans drug store and tell him about your case of nervous debility. He will give you a free sample dose of Nerv-Worth and some good advice.

## HORROR

AT THE REPORT THAT GERMANS  
KILLED THEIR OWN DES-  
PERATELY WOUNDED

And Aided Only Those Who Would  
Soon Recover—Desperate  
British Courage.

(ASSOCIATED PRESS TELEGRAM)  
London, Sept. 2.—5:25 A. M.—

The Ostend correspondent of the Express quotes Leon Hard, senator of Hainault, as testifying "that the Germans killed their own severely wounded on the battlefield, only lending aid to those who would soon recover."

There are many signs according to the despatch, that the Germans suffered heavily at Mons.

Returning remnants of those who were in the fight spoke bitterly of British courage.

One force of 250 British, it is stated, must have accounted for thousands of Germans.

All along their line of retreat they had prepared a defense made with bags full of potatoes, found in a neighboring factory.

Through these were placed maxims and on top German helmets.

The first Germans came up to this seemingly friendly line, and the maxims spoke and soon no Germans were left.

Mons is reported to have suffered heavily and its whole neighborhood has been devastated.

FAST TIME MADE  
BY SMALL FIELD  
AT SYRACUSE FAIR

Syracuse, N. Y., Sept. 2.—Fast time marked the efforts of 11 horses participating in three races constituting yesterday's Grand Circuit program at the New York state fair. Despite the small fields the racing was keen.

With three starters the free-for-all trotting sweepstakes was easily the feature. Anvil won both heats with Peter Scott, driven by Walter Cox, second, and Doodle Archibald, with Frank G. Jones driving, third.

Geers won a second victory when, with Etawah, he took the Governor's 2:06 trot almost without an effort. He went to the front right at the wire and was never headed in any one of the three heats.

Harry the Ghost took the first two heats of the 2:05 pace after coming from the rear at the head of the stretch. In the third heat, however, he failed to last the distance. Del Rey, who had led much of the way up the back stretch, winning handily. Del Rey also won the remaining two heats and the race.

Today's program includes two of the year's greatest classics, the Empire State \$10,000 stake for 2:14 trotters and the Syracuse \$5,000 stake for 2:11 pacers. The entire card is worth \$19,500.

## ELY'S CREAM BALM OPENS CLOGGED NOSTRILS AND HEAD-CATARRH GOES

Instantly Clears Air Passages; You Breathe Freely, Nasty Discharge Stops, Head Colds and Dull Headache Vanish.

Get a small bottle anyway, just to try it—Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely; dizziness and headache disappear. By morning the catarrh, cold-in-head or catarrhal sore throat will be gone.

End such misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. This sweet, fragrant balm dissolves the heat of the nostrils:

penetrates and heals the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages; stops nasty discharges and a feeling of cleansing, soothing relief comes immediately.

Don't lay awake tonight struggling for breath, with head stuffed; nostrils closed, hawking and blowing. Catarrh or a cold, with its running nose, foul mucus dripping into the throat, and raw dryness is distressing but truly needless.

Put your faith—just once—in "Ely's Cream Balm" and your cold or catarrh will surely disappear.

## BE PRETTY! TURN GRAY HAIR DARK

Look young! Nobody can tell if you use Grandmother's simple recipe of Sage Tea and Sulphur.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Hair Remedy," you will get a large bottle of this famous old recipe for about 50 cents.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy. IF KIDNEYS ACT  
BAD TAKE SALTS

Says Backache is a sign you have been eating too much meat which forms uric acid.

When you wake up with the backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms backache, gick headache, dizzy spells; your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Rather consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have bad meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink.

## NOTICE TO FARMERS

The H. D. Ashbrook Company's Flour mill at Granville is making as good a grade of flour as can be bought in the state. Their machinery is in first class condition. Their miller understands his business, having had forty years experience in flour making.

## Will You Help?

The whole world staggers under the awful rain of bullets in Europe. Thousands upon thousands of young men are falling and desolation is following the wake of this Titanic struggle, the greatest the world has ever seen.

It matters not whether one's sympathies are with Germans or the allies, the sympathy of all goes out to the wounded and the grief-stricken, but sympathy in itself amounts to little unless it is backed up with deeds.

In this great European conflict America is neutral as it should be and the administration at Washington may be depended upon to preserve neutrality and to keep the American people out of war.

While Americans are neutral, every man, woman and child prays for early peace.

The one organization that is doing noble work in ministering to the wounded on the battlefields is the Red Cross. Next Saturday another army of surgeons and nurses is to be sent from this country to Europe to care for the injured soldiers of all armies in the field. It takes money to provide this relief and the American people ever ready to render assistance are not backward in this time of greatest need.

What will Newark do? Many doubtless will be glad to aid the Red Cross in its work of mercy but few perhaps will care to send their contributions direct. The Advocate will be pleased to receive and forward all sums that may be contributed to the Red Cross and will start the local subscription with a check for \$25. Contributions sent to this office will be acknowledged through this newspaper.

## Do You Remember?

Though not very old, we can remember when the Republican majority in the General Assembly, at the dictation of Senator Mark Hanna, who wanted to hobble Mayor Tom L. Johnson, created the Board of Review System. This took from the cities of Ohio the right to name their boards of equalization and put it into the hands of Auditor of State Walter D. Guilbert, State Treasurer Wm. McKinnon and Attorney General John M. Sheets. But strangely enough, we cannot remember that Hon. Frank

## By the Way

As a general thing, working for a corporation pays better, and is more satisfactory than working for humanity.

What has become of the old-fashioned man who went down to the creek and took a bath every summer?

The man who has a plan to take it today from the rich and give it to the poor can always command a large and enthusiastic audience.

The trouble with a loafer is not that he is unwilling to work. The trouble is that he probably will induce men who are willing to do so to become dissatisfied and quit their tasks.

## AT THE GATES OF PARIS, 1914.

## Sidelights on the Great European War

In the fewest words, the cause of the present European war may be said to be the jealousy of nations.

The commanding figure among the allies is General Pau in charge of the French forces.

Bordeaux, pronounced Boardo, to which the capital of France may be temporarily moved, is a city of about 150,000 people in southern France. Forty-four years ago in the Franco-Prussian war the French capital was established in Bordeaux.

The Italian steamer Prinipezza Mafalda, chartered by John E. Jones, American consul at Genoa, at a cost of \$18,000 reached New York yesterday from Italy, with 388 wealthy Americans aboard and unoccupied cabins with space for 200 more. Some of the passengers paid \$7,000 for a cabin; none paid less than \$100, and the average cost to all aboard was approximately \$500.

In direct line with the movement of the German army upon Paris is Compeigne on the Oise—always a favorite residence of the kings of France in the monarchical days. Joan of Arc was captured here, and a fine monument in her memory has been erected at the place. It is a city of about 18,000 people now.—Columbus Dispatch.

Congress is now making a new internal revenue tax bill to raise money for government purposes as a result of the European war, owing to the falling off of imports the United States must raise another hundred millions. Will we have stamps on our checks, telegrams and not as in the Spanish war 16 years ago? Shall the tax on tobacco and liquors be increased?

Albert, King of Belgium, is 39 years of age. He bears a striking resemblance to his uncle, King Leopold II. He has been on the throne since 1909. He was in America in 1898.

James Middletown in an article on Europe's food supply in war time, in the September World's Work, places Russia, France, Austria and Serbia in the self-supporting class, England and Belgium in the non-self-supporting column, and Germany as doubtful. The German ambassador, Count von Bernstorff, however, in an interview declares: "Our food supply could last forever. Germany is absolutely self-sustaining if she wants to be." The New York World says that England and Germany are together the great food nations of the producing states. The Outlook gives this table of Ger-

many's importation of wheat alone in 1912, in tons. Reckon about thirty-six bushels to the ton:

From	
Russia	558,426
Canada	269,530
Australia	222,580
Argentina	546,439
United States	446,512

Total.....2,443,493

The German wheat crop that year was about 175,000,000 bushels to our 75,000,000. This year we have over 900,000,000 bushels. Britain's wheat imports are more than twice those of Germany.

Germany raises much more rye than the United States. Rye bread being the favorite staple. On the other hand she has no corn crop. In 1912 Germany imported "agricultural products and foodstuffs" to the enormous total of 6,500,000,000 marks. Exports in the same classification reduced the net imports to about \$1,250,000,000. This is about the same sum as the British imports of "food, drink and tobacco," but the classifications are so different as to make comparison worthless. In general, Germany imports much less food per month than Great Britain, but she has many more mouths. For eggs alone she paid \$40,000,000 in 1911.

## High Prices and Bakers.

There is probably no class of business that is as much affected as that of the bakers. People, in general, do not realize the way high prices affect the bakery business, they rather expect as large a cut of cake or as large a loaf of bread, when prices are high as when they are low. Just now, due to the high price of flour, sugar, shortening, nuts and other raw materials, many bakers over the country, say they can not stay in business, if prices continue to advance. Spring wheat flour is the

RICHARD DARWIN PEASE

One year old son of Mr. and Mrs. Ben Pease of South Fourth street, Newark.

This Newark youngster, with his mind on the squirming worms on the fish hooks, which he noticed on a recent fishing trip, embarrassed his mother recently by making an inopportune observation while they were guests at the home of a friend. At one of the meals, fish were served fried crisp and brown. The hostess had used bacon rinds in the skillet, several of which were on the platter when it was passed.

The youngster took one look at the contorted bacon rinds, and said: "Mother, are these the worms the man caught the fish with?"

There is a Newark little girl, aged four years, who has many accomplishments but singing is not one of them. She returned home from Sunday school one morning and was telling her mother of what took place in the morning exercises. Among other things she told of the songs they sang.

"Did you sing too?" asked the mother.

"No, mamma, they asked me not to," was the innocent reply.

three million men, and told them to scrap while the scrapping was fine; the king, much offended, emerged from his den, and called for his soldiers, and got them in line. Ah, then there was war, and the sickening thud, and there was a soul searching chorus of groans; and travelers waded through rivers of blood, or twisted their ankles on hillocks of bones. The homes of the people made excellent fires, and women were widowed without their consent; and children were waiting in vain for the sires whose blood for a bow-wow was foolishly spent. And when it was over, and legions were slain, a horse doctor looked at the emperor's Spitz. "The beast wasn't poisoned," he muttered, that's plain—the confounded dog was a victim of fits."

OF NEWARK BOARD OF EDUCATION WILL BE ECONOMY IN EVERY DEPARTMENT

Increase in Salary Refused—Appropriation for Coming Year Is Reduced.

The board of education held a short session Tuesday evening, allowed a number of bills, employed one new grade teacher, transacted routine business and adjourned to meet again on the regular meeting night, Tuesday, September 15.

Members W. C. Christian, W. E. Miller, S. W. Haight and Clerk J. K. Dewey were present. After minutes of the last meeting had been read and approved the following bills were allowed:

Reinhold Plumbing & Heating Co., \$8.17.  
F. H. Jones, 3 dozen brooms, \$12.00.

Phil Vogelmeier, hauling and freight, \$33.38.  
Evans Supply Co., \$1.

Ohio Light and Power Co., \$2.52.  
W. J. Handel, labor, \$23.40.  
W. Emmert, teaming and labor, \$10.00.

W. H. Mazey Co., dry goods, \$1.73.  
Lawyer Bros., 6 gallons flexo tint, \$15.00.

Norris & Webb, lumber, \$22.50.  
A. G. Spalding & Bros., \$3.60.  
A. L. Norton Co., \$8.15.

Elliot Hardware Co., \$20.14.  
Coulter-McKay Co., \$16.98.  
John J. Carroll, \$1.80.

The last six bills were for supplies and paraphernalia used on the several playgrounds of the city.

A communication was next read from the Labor Assembly which was in the form of a resolution adopted by that body, requesting the board of education to recommend the purchase of all school books and supplies only from those stores displaying a union card. As the board takes no stand recommending the purchase of books or supplies, the communication was laid on the table and the secretary requested to so notify the Labor Assembly.

Supt. Wilson Hawkins who was unable to be present at the meeting on account of an engagement which called him out of the city, notified the board members by a communication of the resignation of Miss Edith Brown of the Riverside school and recommended the appointment of Miss Isabelle Conrad, daughter of the late Charles Conrad, a former board member, at a salary of \$400 per year. Miss Conrad was appointed to fill the position.

Mrs. Mary Stasel, waitress of the Mill street school asked for an increase of pay. Owing to the fact that \$6,000 was "chopped off" the amount asked by the board to meet current expenses this year it was thought best not to grant any advances in the matter of salaries.

Supt. Wilson Hawkins, Principal O. J. Barnes and Prof. W. E. Painter were each allowed \$25 salary as school examiners. The examiners reported \$27.70 collected as fees from applicants who had taken the examinations.

Superintendent of supplies and repairs Frank Handel, informed the board that the new annex of the Conrad building should be wired for fire bells and gongs. He submitted two bids which he had received, one from the Newark Electric company for \$14.50 and one from A. N. Banton for \$22. The former was given the contract.

A request was made to keep White Athletic Field open a few weeks longer than had been intended so that tennis players could use the courts. The board granted the request but stated that supervision of the field would have to be furnished gratis as it was now necessary to begin retrenchments along all lines.

## BEECH WOODS.

The Linville reunion was held at the home of the late Joseph Linville Wednesday. Over 150 were present.

A basket dinner was spread under the tall pines in front of the house, of which all partook. Ice cream and cake were served to all. The reunion will be held on the fourth Thursday of August next year. Mrs. Samantha Berry of New Salem, was chosen by acclamation as president of the association and U. S. Eldes secretary and treasurer. Among those from a distance were Clint and Ham Linville, of Delaware; E. C. Orman and wife of Columbus; Colson and Sebury Linville of Columbus; W. Hays Linville and sister, Mrs. Daisy Welans and children of Columbia City, Ind.; James Linville and family of Junction City; Mr. and Mrs. J. A. Gamble of Bucyrus; Ben and David Linville of Columbus; Mr. and Mrs. Curt L. Berry of Lancaster; Rev. W. H. McDaniel of Rushville and Rev. A. P. Aller of Pleasantville.

The Kerlin's home coming was held in Amos Winegardner's woods Thursday. About 800 people were there. Music was furnished by the Rushville band and selections by the school. The principal speakers were Rev. M. V. Dick of Marietta, O., Simon Thomas and B. F. Pries, of Lancaster, and short addresses by former teachers. At the noon hour a basket dinner was spread under the trees. Many who had not seen each other in forty years were brought together before a table that would have been envied by the crowned heads. Roy and Lloyd Tobias of Lancaster, took a picture of the crowd with a revolving camera which will be three feet in length. Among a few visitors out of the county were Mrs. John Moore of Piqua, O., Elmer J. of South Berne, San Pier of Lancaster, N. J., Lincoln of Groveport, J. J. Friesner of Lancaster, E. L. Jones of Granville, Viola P. Garrison of Vanatta, Will Swinehart of Findlay.

Richland township should get ready and have a home coming next year. The movement would be a good one and would be a credit not only to the citizens of Richland but to the entire surrounding country.

## UTICA.

The Social Service league met Monday evening at the Covenant church for the purpose of selecting a course of entertainment for the public this coming year.

Several from here are expecting to attend the State Fair at Columbus this week.

The public schools of our village opened Monday with all fifteen teachers reporting for duty. Over 450 were enrolled the first day, 97 of whom were in high school. Four more will enter high school this week bringing the total to 101, a larger number than was ever enrolled in our local high school. Several new teachers have been employed for the present year, of whom are A. G. Clinger, Prin.; Mary Bricker and Sophia Trump in the high school, and Nellie Nethers, Lottie Vandervort, and Mona Donahay in the grades.

The fourth and last quarterly conference of the M. E. church will meet Friday evening of this week at the church. Communion will be held Sunday morning, Rev. Dr. Philpot, District Supr. officiating.

The foot-ball boys of our village met in the school building Monday afternoon to talk over the present situation. The outlook is fine for a good team.

## Theatres

Auditorium Tonight.

Do not miss the big amateur performance at the Auditorium Theater tonight. Large crowds are attending these performances and they have found them very entertaining. Several of Newark's best known amateurs have signed up to appear in the contest tonight and you are assured of a pleasing contest. In conjunction with this performance the usual run of high class photo-plays will be shown.

Max Asher the popular Joker comedian in a joker farce comedy entitled, "That's Fair Enough," in this film Mr. Asher is surrounded by Louise Fazenda and Bob Vernon and the entire company of Joker comedian. Max Asher has long been regarded as the premier comedian in motion picture and in this film he appears in a part that exactly fits his talents.

"In the Days of Old" an Eclair photo play in which all the actors are children. The novelty of all child actors is sure to appeal to you.

Phillips Smalley, Louis Weber in a Rex photo drama, "Behind the Veil." This film is a powerful photo production.

The Animated Weekly, the newsy happenings of the past week.

These photo-plays make up an excellent program and with the amateur performance it will mean one big evening of fun and entertainment.

## The Spell of The Dance Is On

From coast to coast—from the mansions of the rich to the less elaborate abodes of the poor—the lively, swirling, insinuating, spell weaving music of the times is demanding expression in physical rhythm.

To the young and old alike, modern popular music is alluring—inescapable. It seizes and dominates and lifts us into a world of delicious excitement.

Let your home tremble with the radiant, joyous rhythm of music. Place a piano or a player piano in your home.

Let the Boys and Girls and Their Friends Clear the Floor and Swirl to their Hearts' Content.

It will keep them at home. It will free them from the association and influence of less favorable meeting places, and provide them with the means of clean, healthful enjoyment. If you have children, young or grown up, you could add nothing more to complete their happy lives than a good piano or player piano.

One of our Pianos is worthy of a conspicuous place in your home.
